QUARYL[®] CRYSTAL

Nature Perfected.

Quaryl[®] Crystal combines the best properties of natural quartz with the versatility of high-quality acrylic resin. Quaryl[®] Crystal is a refinement of nature. Warm and smooth with a sleek design, solid and hard like crystal.

However, unlike in nature, the form is not left to chance, it is in the hands of designers, and Quaryl[®] Crystal gives them creative freedom.

Quaryl[®] Crystal is a new element that exhibits the finest properties one could wish for in just one material – it can be moulded; it is durable and timeless, warm and pure.

It is exactly what one would hope for when trying to improve on nature.

WHEN NATURE AND TECHNOLOGY JOIN FORCES.

It all starts with quartz crystal

The basis: 60 % pure, fine-ground quartz powder

Liquid Quaryl®

The best of two worlds come together – exclusively at Villeroy & Boch. Pure-grade quartz crystals are extracted from an open-cast mine and carefully selected for the manufacturing process. They are fine-ground in several stages and continuously cleaned and sieved until quartz becomes Quaryl® Crystal.

The unique liquid mixture comprising 60 % quartz and high-quality acrylic resin can be moulded into any form using a high-precision casting method for the manufacture of Quaryl® Crystal products. The resulting Quaryl® Crystal is a unique material with a thickness of up to 18 mm. Thanks to its durability, Quaryl® Crystal has provided a successful foundation for numerous product and design innovations for years.

ADVANTAGES OF QUARYL® CRYSTAL

Precision

- Striking design
- Flush-fit installation
- Small dimensional tolerances
- Precisely finished edges

Material

- 60% quartz content
- High level of slip resistance (TÜV-tested)
- Soundproofing effect
- UV-resistant
- Warm & pleasant to the touch

Hygiene

- Simple to clean
- Permanent shine
- Pore-free, smooth surface

SQUARO

Made of Quaryl®, the Squaro range of baths offers perfect reclining comfort together with all the advantages of this innovative material in top quality: such as the unique shape that, with its clear lines, creates a stylish design for timelessly modern bathrooms.

Comfort

As they are so deep, the baths are extremely comfortable, whether for sitting or reclining, and the optional headrests in black and light grey add the finishing touch to reclining comfort.

Aesthetic appeal

Stylish panels in Glossy Black or Satin-finish Chrome are available for the corner variant.

SQUARO EDGE 12

Perfect aesthetics

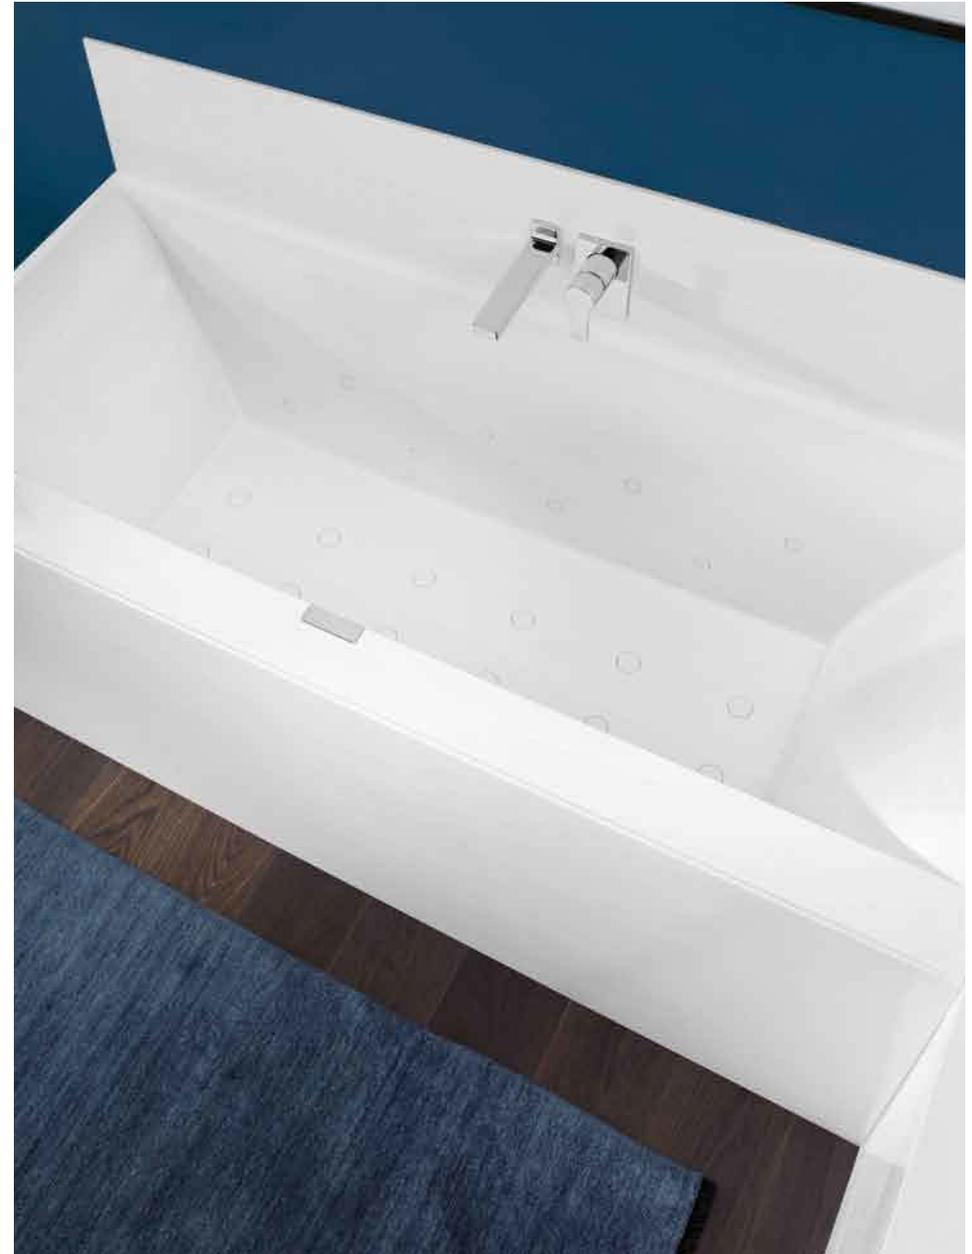

Discover a new dimension to Squaro: the distinguishing features of the unique Squaro Edge 12 are its clear lines and stylish design. The slender 12 millimetre rim is a special highlight. Squaro Edge 12 combines special bathing comfort and premium aesthetics. Quaryl® Crystal, an in-house material development, is used to achieve unusual bath designs and immaculate forms.

The highlights of Squaro Edge 12:

- A bath rim that is just 12 mm wide
- An inside depth of just 45 cm for low water consumption and to facilitate getting in and out
- Flush-integrated outlet and overflow fitting in chrome and white, included in the scope of delivery
- Integrated water inlet available as an option
- In the commercial sizes, also available as built-in variant
- Apron available in White or Graphite Noir
- Suitable for whirlpool systems
- Interior Design Award winner 2013

SQUARO SLIMLINE

Wellness on a daily basis.

Standard rim 100 mm

Similar to the Squaro bathtub but with a shorter rim of only 20 mm, instead of the Squaro standard 100 mm

Made of Quaryl®, the Squaro Slimline range of baths offers perfect reclining comfort together with all the advantages of this innovative material in top quality: such as the unique shape that, with its clear lines, creates a stylish design for timelessly modern bathrooms.

Shorter rim of only 20 mm

SQUARO SUPERFLAT

Perfect harmony

DESIGN PLUS

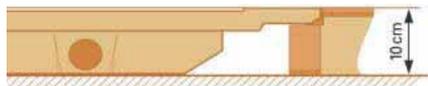

reddot design award
winner 2008

Stylish design for timelessly modern bathrooms: aesthetic appeal down to the smallest detail is guaranteed thanks to the use of Quaryl® Crystal. As the flattest shower tray from Villeroy & Boch Squaro Superflat fits perfectly into the floor. Coordinated with the latest floor trends and different tile ranges from Villeroy & Boch, the coloured models can be chosen to create a uniform look - for modern bathroom design in a class of its own.

SQUARO INFINITY

The customised solution

With Squaro Infinity, Villeroy & Boch presents an innovative shower tray made of Quarryl® Crystal that can be cut to size right down to the last millimetre. It is available in individual sizes and can even be adapted to accommodate corners, columns or projections. This opens up a wealth of possibilities for bathroom design and offers a customised solution even for complex room layouts. The slim, ultra-flat form and the flush, integrated outlet set the highest standards in terms of design.

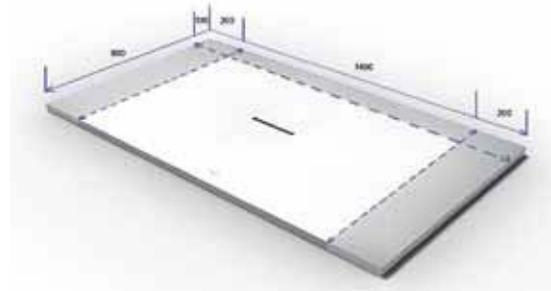

villeroyboch.com/squaroinfinity

Variety down to the Very last millimetre:

Available in 49 sizes, Squaro Infinity offers unlimited design possibilities to meet individual comfort requirements. Special dimensions are available in every size from 1800 x 1000 to 800 x 700 mm and can be cut precisely to size with millimetre accuracy. Individual, customised special shapes are also possible.

Perfect fit

Thanks to customised special shapes, the shower tray can even be fitted around pedestals, projections and unusual angles. The pore-free surface is easy to clean and therefore particularly hygienic.

SHOWER TRAY COLOURS AND OUTLET COLOURS*

Five attractive colours to meet every taste, harmoniously matched to the colours of the Villeroy & Boch tiles. Highest anti-slip class C for maximum safety.

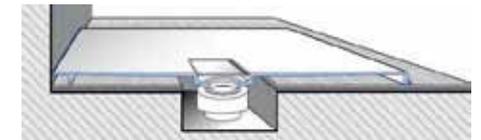

Easy and safe installation

Three different installation methods: Whatever the size, each shower tray can be fitted flush, which is perfect for barrier-free entry. The two surface-mounted variants are possible for selected models.

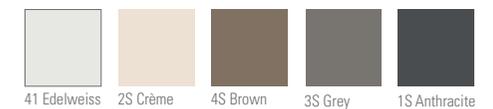

FLUSH-FIT INSTALLATION

INSTALLATION ON TILES

INSTALLATION ON A BASE

*The outlet colours exactly match the shower tray colours.
